

# Shooty Space Rocks

Game Authored by Sam Ward

Genre: Shoot 'em up

On a routine space journey, you find yourself lost in an asteroid field. With no other option, you must... **Shoot Your Way Out!**

Young and looking for something fast paced? Older wanting to reminisce? Well prepare yourself for the nostalgia with this throwback arcade hit! With a console twist...

Shooty Space rocks is a fast paced, single player arcade style space shooter. The Player controls a Spaceship in an asteroid field and must destroy all the asteroids in order to escape safely. The asteroids break into smaller asteroids when shot and get increasingly faster and more frequent as you progress, be careful to avoid them or they will damage your Spaceship, take enough damage and its game over.

\*currently using default graphics, will be updated

Continuous play system (no levels), asteroid spawn and difficulty increase over time, game is complete when a set number of asteroids have been destroyed. Space environment is wrap around style.

## USP (Unique Selling Points)

- Unique player control using dual analog sticks for movement and rotation.
- Multiple weapons... lasers AND rockets.
- Immerse yourself in the game with the dynamic space environment.
- Feel the realism with the intelligent collision detection.
- Not just asteroids... Hostile UFO's too!
